

Request to Survey the CATA Membership

Determination of Need for Ethics Approval Checklist and Statement of Verification

Requirements for ethical review and approval of research involving humans are in compliance with the following guidelines:

1. *Tri- Council Policy Statement on Research involving Human Subjects (TCPS2) Section A. Research Requiring REB Review; Article 2.1*

Please review these two resources to determine if your survey requires ethical review and approval.

If you determine that require ethical review and approval are required please obtain ethics approval prior to submitting your request to survey the CATA Membership and include a copy of the letter confirming ethical approval with your application.

If you determine that require ethical review and approval are not required for your survey complete the following statement of verification indicating that you have reviewed the two resources listed above and have determined that ethical review and approval are not required for your survey. Please include a brief description (> 200 words) outlining why ethical review and approval are not required making specific reference to the two guidelines provided.

Statement of Verification:

As the lead investigator and/or primary applicant submitting this Request to Survey the CATA membership, I, _____, declare that that I have determined, through consultation with (but not limited to) the two guidelines above, that the proposed survey does not require ethical review and approval.

Name (please print) of lead investigator and/or primary applicant

Signature of lead investigator and/or primary applicant

Date

Name (please print) of the Witness
